INTRODUCTION

James Bailey

- **Systems Analyst for PTC products on the GESS 3 contract at NASA Glenn Research Center. Team provides engineering and specialized applications support**
- **Training and support for end users on GxP, PDMLink business & systems admin, upgrade planning and WC deployment**

PROJECT SUMMARY

In order to provide a more streamlined, cost-effective approach to keeping GRC's Windchill version current- we have transitioned from a PTC led upgrade structure, to managing & implementing upgrades with current on-site personnel.

- *Successfully upgraded from 10.1 M040 to 10.2 M030*
- *1-1/2 months part time effort, existing staff.*
- *Additional tools rolled out with upgrade*
 - *Index search*
 - *PDF Markup*
 - *PTC System Monitor*
 - *Additional CAD Workers*

KEY POINTS

NASA GRC Expectations

- Minimal Downtime
 - 1tb of vault data, ~ 8 million objects, ~ 300 total users
- Reduce Cost
- Maintain as close to OOTB as possible

On-Site Resources

- In-house resources who have years of experience in Oracle, SysAdmin, VM, PTC Products
- Team includes staff that support users on a regular basis- allows us to know the system, the users, and the problems they face- allowing us to understand how system issues affect regular user issues.
- Build upon organizational knowledge to meet end-user needs after an upgrade

Meeting Expectations & Validating Success

- Utilize several practice upgrades to validate process & documentation (1 dev test, 4 to 5 rehearsals)
- Utilize in-house knowledge of expected results test cases to verify data & process integrity in new system
- End user validation/acceptance test lab – Showcase new features and find anything they don't expect.

Understanding Your System, your users, and their needs

- Real value by knowing your system & Windchill requirements, as well as the users & their requirements

PROJECT RESULTS

- Project & all planned modules implemented on schedule
- Implementation used standard PTC support, no extra cost for consulting.
- Effort included:
 - ~200 total hours, ~40 hours for the actual upgrade for 3 people
- ***\$0 – Upgrade, cost avoidance of approximately \$290k***

The image features several colorful geometric shapes, primarily triangles and lines, scattered across the background. On the right side, there is a large, multi-colored triangular shape composed of smaller triangles in shades of blue, green, yellow, orange, pink, and purple. Several thin, colored lines (blue, pink, green, orange) radiate from the center of the text area towards the corners of the page.
