Arbortext-specific terms, footnotes, and definitions

Starting with Arbortext 5.2, the PTC policy is to provide a minimum of three years of software maintenance support for an Arbortext major release as measured from the completion of that release.

For information about older Arbortext products and releases, visit the PTC Product Archive page at:
http://www.ptc.com/cs/product_calendar/PTC_Product_Calendar_Archive.htm

Axeda Product Family

Windchill-specific terms, footnotes, and definitions	
Commencing with the 7.0 release it is PTC's policy to provide a minimum of four years of Standard Support for a Windchill major release or point release as measured from the F000 (First Customer Shipment) date for that release. Note: This support policy does not apply to Windchill ProductPoint.	
X-20	Internal name for Windchill that is used by PTC until the official release.
PartsLink	This section of the table refers to the standalone Windchill solution "PartsLink Catalog", not the Windchill PartsLink Classification & ReUse module.
(1)	Support for the following modules is not planned to be available until the 8.0 M010 release: CatiaV4 Workgroup Manager, CADDS5 Workgroup Manager and Optegra Gateway
(2)	Support for the following modules is not planned to be available until the 9.1 release: Windchill Aerospace & Defense, CatiaV4 Workgroup Manager, CADDS5 Workgroup Manager and Optegra Gateway
(3)	Supports Windchill PDMLink 8.0, Pro/INTRALINK 8.0 and Pro/INTRALINK 3.4
(4)	Supports Windchill PDMLink 9.0 and Pro/INTRALINK 9.0
(5)	The Pro/INTRALINK Data Migrator 9.0 M070 is scheduled to release in early May (four weeks after the general 9.0 M070 release)
(6)	The Windchill 9.1 Workgroup Managers, Windchill® 9.1 Gateway for I-deas® TDM, and Windchill® PLM Connector for TDM CDs will release in October (four weeks after the 9.1-M060 general release)
(7)	At 11.1 F000 the Rehosting Utility is included with Windchill and has the same support dates.
(8)	Reference Product being used with PTC System Monitor for standard and extended end of support dates.

For information about older Windchill products and releases, visit the PTC Product Calendar Archive page at:
http://www.ptc.com/cs/product_calendar/PTC_Product_Calendar_Archive.htm

Beginning with the 10.2 release, PTC products based on the Windchill Core platform (including Windchill PDMLink, Windchill ProjectLink, Pro/INTRALINK, Windchill Service Information Manager, Windchill Service Parts and Windchill PDM Essentials) are supported by monthly software releases called critical patch sets (CPS) in addition to the traditional maintenance releases (such as PTC Windchill 10.2 M010). See

https://www.ptc.com/cs/product_calendar/WC_CPS.htm

Glossary of Terms

Term	Definition
Release	The major release version or point release version.
Datecode	The unique identifier for a release. Datecodes starting with an "F" designate the first release of a product. Datecodes starting with an "M" denote a maintenance release. Datecodes starting with a "C" denote a Preproduction release.
Ship Date	The date PTC begins shipping software to customers.
Standard Support	See Gold & Platinum Enterprise Support in PTC's Terms and Conditions document for a complete description of services included. https://www.ptc.com/en/legal-agreements/support-documents PTC products are in the Standard Support period starting from the first customer ship date (FCS). Standard Support refers to the period during which active GOLD, GOLDplus or PLATINUM customers can submit Technical Support cases, have access to SPR fixes via maintenance releases, have access to critical patch sets and have access to new versions of PTC software for the products they own. Each product in the PTC Product Release Calendar specifies when the Standard Support period ends. For specific PTC Windchill products, Standard Support is available for 4 years from FCS.
Sustained Support	At the expiration of the Standard Support period, Sustained Support is in effect for as long as the products are included in a Support agreement. Sustained Support includes online, self-help technical support, access to pre-existing patches, maintenance releases and SPR fixes. PTC will provide the ability to request and receive assisted technical support, both electronically and by telephone, for two years after the expiration of the Standard Support period (officially retired products, such as PTC Pro/INTRALINK 3.4 or earlier and PTC Windchill ProductPoint, are no longer eligible for Sustained Support). The Sustained Support period does not provide customers access to new maintenance releases, temporary patches or SPR fixes if created for customers who purchase the optional Extended Support service described below.
Extended Support	For qualified PTC Windchill products and releases, customers may extend their Support coverage for a product release by purchasing Extended Support for 1 additional year. Extended Support refers to the period during which PTC provides many of the same services as Standard Support for an additional fee. Extended Support is only available for certain PTC products and software releases and includes SPR fixes via special releases. For qualified contracts, Extended Support may be renewed for one additional year. Extended Support may not include updated support for newer versions of 3rd party products or platforms. For information about 3rd party products and versions supported during the extended support period, customers should view the platform support matrix for the last regularly scheduled maintenance release that was delivered during the Standard Support period. During the Extended Support period, PTC's ability to support these older versions of 3rd party products may be limited due to the support periods offered by these third party applications.
Bold Dates	Achieved dates.
