Title	How to update Java SDK from 1.6.0_x to a newer version in 1.6.0_x in Windchill
Description	<ul style="list-style-type: none"> • How to update Java SDK From 1.6.0_x to a newer version in 1.6.0_x <ul style="list-style-type: none"> • In some circumstances, users might be advised to update the Java SDK (= SE Development Kit) version they have to address different issues • The target Java version might not be possible to install using PTC Solution Installer. • How to update JDK installed by PSI to a newer version • Workgroup Manager install loading wheel continues to spin without the installer loading
Applies To	Windchill 9.0, 9.1, 10.0 releases using Java SDK 1.6.0_x
Cause	
Resolution	<p>Follow the steps below to update Java SDK:</p> <ol style="list-style-type: none"> 1. Stop all Windchill-related services including WindchillDS and Oracle services <ul style="list-style-type: none"> • Make sure there is not any java process running • If there is any, kill the process after verifying the associated program is closed properly 2. Go to Control Panel > Add Remove Programs to uninstall the previous Java SDK (e.g. 1.6.0_18) <ul style="list-style-type: none"> • Note the original <windchill>/Java directory will not be deleted and PSI data will still be there • This is okay, so don't delete the folder 3. Restart OS. 4. Obtain newer version of Java SDK 6 update ## (Java SE 6 Update ##: JDK) from Oracle web site 5. Run Java SDK installer <ul style="list-style-type: none"> • In Install to section, change the path to the previous Java location used by Windchill (Typically <windchill>/Java) • By default the installer will provide: C:\Program Files\Java\jdk1.6.0_##, so change this to <windchill>/Java (for example C:\ptcWindchill_9.1\Java)

6. After the installation is complete, verify that Windchill starts up properly
