

# Technical Graphics Compendium

## Introduction

This document compiles cross product compatibility information for technical illustration authoring and viewing products (like Creo Illustrate, Arbortext IsoDraw, Creo View). These recommended product combinations are based on compatibility, testing, performance, and reliability.

### Tables of Contents:

#### **Creo Illustrate**

- Platform Support (operating systems and available languages)
- Compatible Windchill versions
- Licensing Options
- Offerings
- Supported Import File Types
- Supported Export & Publishing File Types

#### **Arbortext IsoDraw**

- Platform Support (operating systems and available languages)
- Compatible Windchill versions
- Licensing Options
- Platform Support (operating systems and web browsers)

#### **Creo View/Arbortext IsoView - Arbortext Integration**

- Creo View supported platforms
- Desktop Products Packaging of Creo View
- Desktop Products Packaging of Arbortext IsoView

For release upgrade planning, please see the PTC Release Advisor <http://www.ptc.com/en/support/release-advisor>

# Creo View

Please reference the 'Client Support' table of the Creo View Future Platform Support Summary

<https://www.ptc.com/support/go/CVFPS>

Creo View can reliably open PVZ files published in the same or earlier release of Creo Illustrate.

For example, Creo View 4.1 F000 can reliably open a PVZ created in Creo Illustrate 4.1 F000 or earlier but Creo View 3.1 F000 may not be able to reliably open a PVZ created in Creo Illustrate 3.1 M010 or later.
