

CS 7.0 Exported PDF changing the TEXT format to DRAFT format

CS 3.0 export PDF opened in Adobe Illustrator

CS 3.0:
If we try to edit text properties of wire name CAN-BJ8 YL-20-GXL, it will whole word for edit function/properties.

CS 7.0 export PDF opened in Adobe Illustrator

CS 7.0:
If we try to edit text properties of wire name J803-FC343 BR-18, it will select only individual characters instead of whole word/wire name. Please see char "3" only selected for instance.

Note:
After PDF export on CS 7.0 and try to edit within PDF format is not having similar issue, whereas if we open the same PDF file in Adobe Illustrator for decoration purpose as per our internal standards, then we are facing this issue.
