ptc

Hi. I am Susan Leisten. I live in California, and our family has a swimming. This is our pool.

And, these are our pool supplies.

Over the past 12-months we spent \$694.54 at Active Pool Supplies.

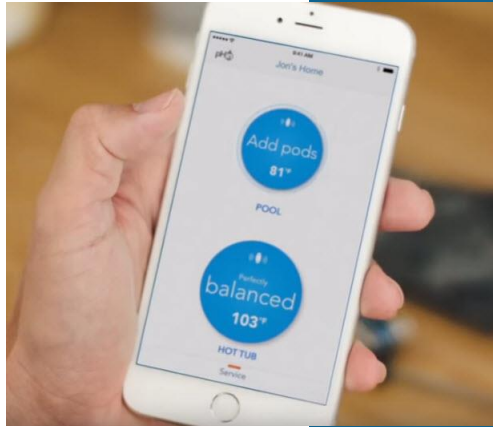

Meet pHin.com

They've developed a Smart Pool Monitoring solution leveraging IoT

Here is how it works ...

How It Works

Here what they say are the benefits ...

Key Features

Confidence in your Pool

Monitor pH, chlorine, total alkalinity, total hardness and cyanuric acid from anywhere in the world.

Accurate Sensors

Lab grade sensors and no moving parts give consistent and reliable readings.

Everything You Need

The subscription price includes the monitor, the mobile app, AND your basic chemicals: Chlorine, pH increaser and pH reducer. All for about the same price you pay today for the

Easy Care

Easy monthly subscription plan means that we're always there for you to make pool care easy. We'll also ship you upgraded hardware automatically, at no extra charge.

Specialty Chemicals

If your pool or hot tub ever needs any specialty chemicals, such as algaecide, we'll ship you what you need at a discounted price.

Service

Get expert help when you need it. We'll pay for it when someone yearns for a pool club.

Why use pHin?

| | pHin | Do it Yourself |
|---|------|----------------|
| 24/7 monitoring of your water chemistry | ✓ | |
| Premeasured chemical pods | ✓ | |
| Remote monitoring of your pool or hot tub | ✓ | |
| Chemicals shipped to your door | ✓ | |
| Network of service professionals | ✓ | |
| Buying test kits for weekly maintenance | | ✓ |
| Manual testing weekly | | ✓ |
| Driving to pickup chemicals | | ✓ |

From my perspective ...

\$694 vs. \$295*

60% Savings for more convenience

Going forward ...

I would love to see pHin.com take the information about the chemical levels within our pool to optimize the amount of filtration needed. This is another huge cost for pool owners. With this information, automate the filtration system (i.e. turning on and off of the pool pump).

*annually ...
